Amendment and Response

The Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

In response to the outstanding office action dated March 22, 2004, the following changes in the title and claims and remarks are provided:

In The Specification

At original page 8, line 12:

"knot" should read --knit--

In The Claims

Please canceled claims 1 to 13.

Remarks

The Examiner has objected to the drawings under 37 CFR § 1.83(a) since claim 10 does not show a particular feature. As claim 10 has been canceled, withdrawal of this rejection is respectfully requested.

The Examiner has objected to the specification because there is no page six and the pages thereafter are mis-numbered. New and properly numbered pages six through nine of the specification are submitted herewith. The Examiner also has objected to the specification at original page 8, line 12, whereat "knot" should have read --knit--. The specification has been amended to correct this typographical error.

Claims 1 to 13 have been canceled.

Claims 14 -17 are pending.
